If you are using a phone or other device, make sure the screen saver is turned off so that it does not stop the playback. You will want the volume at a comfortable level.

For all subscribers, all you need to do is click on the "Start Playing" button, an audio player will show up on the bottom of the screen and start playing. Lay back relax and let it work for you.

You will first hear a short piece of relaxing music that will allow you the time to get into a relax comfortable position. The Meditation Session will play two recordings during each session 2 1/2 hours apart, the sessions will rotate through your selected interests you had chosen. Each one will eventually play for 21 times to get the maximum effect.

If you are a Silver or Platinum Subscriber, then you will also have an option to listen to your other chosen recordings that you can play separately outside of

your set meditation sessions. To do that click on "Meditation Playlist" and then clicking on play from the specific recording you want to listen too!

And if you are a Platinum Subscriber you also will have the option of Playing everything in our Meditation Library at any time outside of your set Meditation Sessions by clicking on the "Meditation Library" button then choosing a recording by clicking on play.

Just remember that the hardest thing to do to make this work is to discipline yourself to hit the playlist every night when you go to bed. That is it.

Please enjoy and we would appreciate knowing about any of your successes.

Thank you for joining.
