Begin Reaching Your Highest Potential ... All While You Sleep

The Reach for the Stars phone app customizes guided meditation recordings to your specific desires. With this application, recordings to help you achieve your most important goals will be played in a rotation, ensuring you hear the messages on the subconscious level while falling asleep and while sleeping. These recordings assist you in overcoming the challenges in your life and moving beyond them to reach your Highest Potential in areas physical, mental, emotional and spiritual as well as financial. Manifest your goals into reality!

Guided meditations are recorded by [Terry Brussel-Rogers](#), who has spent over 50 years helping clients reach their highest potential through hypnosis sessions, coaching, and pre-recorded guided meditations.

Imagine ... The Best You

Overcome present challenges and make your goals a reality all while you sleep.

The Reach for the Stars application customizes guided meditation recordings to your specific desires. With this application, recordings to help you with your most important goals will be played in rotation, ensuring you hear the messages on the subconscious level while falling asleep. These quality recordings are scheduled based on your unique goals and desires, aiding you to reach your Highest Potential in areas physical, mental, emotional, spiritual, and financial.

With this application, the meditations play, based upon your choice either 1 or 2 in rotation each night over a period of weeks or months, 21 times each: the required number of repetitions to establish a new mindset. These meditations, constantly being created and added to our library, are selected by a highly trained professional hypnotherapist and scheduled according to priorities you select.

There are four options, there are packages for every budget, ensuring you can easily be on the road to achieving your goals.

Recordings can be revised every 30 or 90 days depending on the subscription chosen, so new recordings can be scheduled as your goals change.

Imagine the Genie of your powerful subconscious mind activated each night to create:
